EDUCATION

Masters of Computer Science 2025 – To Date
University of Herriot-Watt | Edinburgh, UK

Online Courses July 2023 – To Date
YouTube, etc.

Bachelor of Computer Science 2020 – 2023
Top Graduate Nov 2023
University of Wollongong | Dubai, UAE

WORK EXPERIENCE

Web Developer (Lead Front-End Programmer) July 2023 - January 2024

- Developed and maintained responsive web applications (HTML, CSS, JS, Bootstrap, Git) for Iceberg Financial, ensuring seamless user experience across various devices.
- Implemented advanced UI components (incorporated different UI libraries while also creating components from scratch), enhancing the visual appeal and functionality of the User Experience.
- Created dynamic data visualization components, enabling users to interact with complex financial data intuitively.
- Conducted thorough testing and debugging to ensure robust and error-free user interfaces for Iceberg Financial's clients.

Personal Projects *(View project demos at my portfolio website linked at the top)*

AquaSerene | Spa and Massage Business (fictional) August 2023

- Client Management - Designed and developed a user-friendly booking system for a spa and massage business, streamlining appointment scheduling and client management.
- Database Systems - Integrated the app with an SQL Server database, ensuring reliable and secure data storage and retrieval for client information and bookings.
- Authentication Protocols - Integrated the app with an industry-standard credential creation system, ensuring secure and efficient user authentication and access control.
- Real-Time Updates - Created an interactive service menu with real-time availability updates, enhancing the user experience and operational efficiency.
